Aphanomyces invaderis sp. nov., 273
Bangladesh, 263;
snakehead, *Aphanomyces*, 41.
Extracellular metalloproteases, *Aeromonas salmonicida*, 283.
Extracellular protein formation, *Aeromonas salmonicida* glycogen, 221.

Fibrinolysis, coagulation, Atlantic salmon, 623.
Fibromyxoma, tench, 627.
Flavobacterium branchiophilum, virulence, 249.
Furunculosis:
Atlantic salmon, mortality, infectious pancreatic necrosis, 67;
induction, 127;
infectious pancreatic necrosis, mortality, Atlantic salmon, 67;
mortality, Atlantic salmon, infectious pancreatic necrosis, 67.
Furunculosis vaccine, spleen, Atlantic salmon, 199.

Gadus morhua L., *see* cod.
Gill structure, buffers, common carp, rainbow trout, 411.
Glycogen, extracellular protein formation, *Aeromonas salmonicida*, 221.
Glycyrrhizin, leucocyte responses, rainbow trout, 307.
Goldfish, herpesviral haematopoietic necrosis, 211.

Gonads, melano-macrophage centres, swamp eel, 117.
Gyrodactylus species, salmonids, DNA probe identification, 539.

Haemorrhagic septicaemia rhabdovirus, membrane phospholipids, low-pH, 519.
Halibut:
  early life stages, *Vibrio* sp., 31.
  mass mortality, nephrocalcinosis, 365;
  nephrocalcinosis, mass mortality, 365;
  Vibrio sp., early life stages, 31.
Herpesviral haematopoietic necrosis, goldfish, 211.
Hippoglossus hippoglossus L., *see* halibut.
Histopathological lesions, *Vibrio damsela*, turbot, 357.

Ichthyophonus hoferi, morphology, electron microscopy, 567.
Ichthyophthiriosis, vitamin C, rainbow trout, 347.
Ichthyosporidium giganteum, *Ctenolabrus rupestris* (L.), 191.
Ictalurus punctatus (Rafinesque), see channel catfish.
Immune responses, *Edwardsiella ictaluri* antigen, channel catfish, 397.
Immunity, astaxanthin supplementation, antioxdant status, Atlantic salmon, 317.
Immunomodulatory effects, macrophages, Atlantic salmon, 175.
Immunogenicity, amoebic antigens, rainbow trout, 9.
Immunostimulants, non-specific protection, African catfish, 195.
In vitro antimicrobial activity, sulphonamides, bacterial fish pathogens, 371.
Indirect fluorescent antibody testing, *Renibacterium salmoninarum*, Atlantic salmon, 83.
Induction, furunculosis, 127.
Infection dynamics, *Caligus epidemicus*, *Ambassis marianus* (Günther), 59.
Infectious pancreatic necrosis, mortality, furunculosis, Atlantic salmon, 67.
Infectious pancreatic necrosis, virus:
  Atlantic salmon:
    infectious salmon anaemia, 579;
    multiplication, 147;
    pathology, 631;
  brook trout, immunization, 449;
  immunization, brook trout, 449;
  infectious salmon anaemia, Atlantic salmon, 579;
  multiplication, Atlantic salmon, 147;
  serological analysis, 377;
  virulence assessment, brook trout, 97.
Infectious salmon anaemia, infectious pancreatic necrosis virus, Atlantic salmon, 579.
Infectious salmon anaemia virus, Atlantic salmon, 135.
Intestinal absorption, tissue localization, polystyrene microspheres, Atlantic salmon, 87.

Laminaran, Atlantic salmon, 545.
Leucocyte responses, glycyrrhizin, rainbow trout, 307.
Lipid sources, diet, cod, 615.
Low-pH, haemorrhagic septicaemia rhabdovirus, membrane phospholipids, 519.
Loxothylacus ihlei, mud crab, 389.
Lymphocystis, red drum, 467.

Macrophages, immunodilatory effects, Atlantic salmon, 175.
Mahi mahi, bizarre organism, 481.
Marteilia sydneyi, molecular diagnosis, Sydney rock oysters, 507.
Melano-macrophage centres, gonads, swamp eel, 117.
Membrane phospholipids, low-pH, haemorrhagic septicaemia rhabdovirus, 519.
Mikrocytos roughleyi, rock oyster, winter mortaility, 609.
Molecular diagnosis, *Marteilia sydneyi*, Sydney rock oysters, 507.
Morphology, electron microscopy, *Ichthyophonus hoferi*, 567.
Mortality, furunculosis, infectious pancreatic necrosis, Atlantic salmon, 67.
Mullet, thick-lipped, *Cryptocaryon irritans*, 329.
Multiplication, infectious pancreatic necrosis virus, Atlantic salmon, 147.
Mycobacterium chelonae, cichlid oscar, polymerase chain reaction, 459.

'No-mucus skin disease', rainbow trout, 49.
Non-specific protection, immunostimulants, African catfish, 195.

Oncorhynchus kisutch (Walbaum), *see* coho salmon.
Oncorhynchus mykiss (Walbaum), *see* rainbow trout.
Oreochromis aureus (Steindachner), *see* tilapia.
Oxytetracycline sensitivity, *Vibrio* sp., black tiger shrimp, 79.
Oysters, rock:
  Mikrocytos roughleyi, winter mortality, 609;
  molecular diagnosis, *Marteilia sydneyi*, 507;
  winter mortality, *Mikrocytos roughleyi*, 609.

Panaque suttoni (Eigenmann & Eigenmann), *see* blue-eyed plecostomus.
Paramoeba sp., resistance, Atlantic salmon, 639.
Pasteurella piscicida, biochemical properties, antibiotic sensitivities, 1.
Pathology:
  Atlantic salmon, infectious pancreatic necrosis virus, 631;
  Enterococcus sp., turbot, 21;
  infectious pancreatic necrosis virus, Atlantic salmon, 631;
Penaeus monodon Fabricus, *see* black tiger shrimp.
Penaeus monodon -type baculovirus infection, black tiger shrimp, 337.
Piscirickettsia salmonis, coho salmon, rainbow trout, 277.
Plasma cortisol and hypertrophic response, *Chaetoceros concavicornis*, rainbow trout, 165.
Plecostomus, blue-eyed rickettsia-like organisms, 157.
Polymerase chain reaction, *Mycobacterium chelonae*, cichlid oscar, 459.
Polystyrene microspheres, intestinal absorption, tissue localization, Atlantic salmon, 87.
Potassium aluminium sulphate, *Aeromonas salmonicida*, Atlantic salmon, 495.
Protozoan parasites, gilthead sea bream, Spain, 105.

Quinolone antibacterials, bioencapsulation, turbot, 229.

Renibacterium salmoninarum:
  brook trout, 383;
  indirect fluorescent antibody testing, Atlantic salmon, 83.
Resistance, Atlantic salmon, *Paramoeba* sp., 639.
Rhodococcus sp., Atlantic salmon, 587.
Rickettsia-like organisms, blue-eyed plecostomus, 157.

Saccostrea commercialis (Angas), see rock oysters.
Salmo salar L., *see* Atlantic salmon.

Salmon:
Atlantic:
Aeromonas salmonicida, potassium aluminium sulphate, 495;
antioxidant status, immunity, astaxanthin supplementation, 317;
astaxanthin supplementation, immunity, antioxidant status, 317;
coagulation, fibrinolysis, 623;
fibrinolysis, coagulation, 623;
furunculosis, infectious pancreatic necrosis, mortality, 67;
furunculosis vaccine, spleen, 199;
immunity, antioxidant status, astaxanthin supplementation, 317;
immunodilatory effects, macrophages, 175;
indirect fluorescent antibody testing, *Renibacterium salmoninarum*, 83;
infectious pancreatic necrosis, mortality, furunculosis, 67;
infectious pancreatic necrosis virus:
infectious salmon anaemia, 579;
multiplication, 147;
pathology, 631;
infectious salmon anaemia, infectious pancreatic necrosis virus, 579;
infectious salmon anaemia virus, 135;
intestinal absorption, tissue localization, polystyrene microspheres, 87;
laminaran, 545;
macrophages, immunodilatory effects, 175;
mortality, furunculosis, infectious pancreatic necrosis, 67;
multiplication, infectious pancreatic necrosis virus, 147;
Paramoeba sp., resistance, 639;
polystyrene microspheres, intestinal absorption, tissue localization, 87;
potassium aluminium sulphate, *Aeromonas salmonicida*, 495;
Renibacterium salmoninarum, indirect fluorescent antibody testing, 83;
resistance, *Paramoeba* sp., 639;
Rhodococcus sp., 587;
spleen, furunculosis vaccine, 199;
tissue localization, intestinal absorption, polystrene microspheres, 87.
coho:
Piscirickettsia salmonis, rainbow trout, 277;
rainbow trout, *Piscirickettsia salmonis*, 277.
Salmonids, DNA probe indentification, *Gyrodactylus* species, 539.
Salvelinus fontinalis (Mitchill), *see* brook trout.
Sciaenops ocellatus (L.), *see* red drum.
Scophthalmus maximus L., *see* turbot.
Scylla serrata (Forskål), *see* mud crab.
Sea bream, gilthead, protozoan parasites, Spain, 105.
Seawater cations, aquaculture antibacterials, 463.
Semi-defined and defined media, eel trypanosome, 599
Serological analysis, infectious pancreatic necrosis virus, 377.
Serum resistance, virulence, *Aermonas hydrophila*, 511.
Shrimp, black tiger:
oxytetracycline sensitivity, *Vibrio* sp., 79;
Penaeus mondon-type baculovirus infection, 337;
Vibrio sp., oxytetracycline sensitivity,79.
Snakehead, *Aphanomyces*, epizootic ulcerative syndrome, 41.
Spain, protozoan parasites, gilthead sea bream, 105.
Sparus auratus L., *see* gilthead sea bream.
Spleen, furunculosis vaccine, Atlantic salmon, 199.
Sporogony, *Calyptospora spinosa*, *Crenicichla lepidota* Heckel, 475.
Sulphonamides, *in vitro* antimicrobial activity, bacterial fish pathogens, 371.
Synbranchus marmoratus Bloch, *see* swamp eel.

Tench, fibromyxoma, 627.
Tilapia phagocytes, *Aeromonas hydrophila*, 435.
Tincatinca L., *see* tench
Tissue localization, intestinal absorption, polystyrene microspheres, Atlantic salmon, 87.
Trypanosoma granulosum Laveran & Mesnil, 1902, *see* eel trypanosome.
Trout:
brook:
infectious pancreatic necrosis virus:
immunization, 449;
virulence assessment, 97;
Renibacterium salmoninarum, 383.
rainbow:
amoebic antigens, immunogenicity, 9;
antibody response, crustacean ectoparasites, 529;
buffers, gill structure, common carp, 411;
[^{14}C]-malachite green, 239;
Chaetoceros concavicornis, plasma cortisol and hypertrophic response, 165;
coho salmon, *Piscirickettsia salmonis*, 277;
Clostridium butyricum bacterin, vibriosis resistance, 187;
common carp, buffers, gill structure, 411;
crustacean ectoparasites, antibody response, 529;
Cryptobia salmositica, 297;
gill structure, buffers, common carp, 411;
glycyrrhizin, leucocyte responses, 307;
ichtyophthirisis, vitamin C, 347;
'no-mucus skin disease', 49;
Piscirickettsia salmonis, coho salmon, 277;
plasma cortisol and hypertrophic response, *Chaetoceros concavicornis*, 165;
vibriosis resistance, *Clostridium butyricum* bacterin, 187;
vitamin C, ichthyophthiriosis, 347.
Turbot:
bioencapsulation, quinolone antibacterials, 229;
Enterococcus sp., pathology, 21;
histopathological lesions, *Vibrio damsela*, 357;
quinolone antibacterials, bioencapsulation, 229;
Vibrio damsela, histopathological lesions, 357;
viral erythrocytic infection, 425.

Vibrio sp.:
black tiger shrimp, oxytetracycline sensitivity, 79;
halibut, early life stages, 31;
oxytetracycline sensitivity, black tiger shrimp, 79.
Vibrio anguillarum, *Aeromonas salmonicida*, *Vibrio ordalii*, *Vibrio alginolyticus*, 93.
Vibrio alginolyticus, *Aeromonas salmonicida*, *Vibrio anguillarum*, *Vibrio ordalii*, 93.
Vibrio damsela, histopathological lesions, turbot, 357.

Vibrio ordalii, Vibrio anguillarum, Aeromonas salmonicida, Vibrio alginolyticus, 93.
Vibriosis resistance, *Clostridium butyricum* bacterin, rainbow trout, 187.
Viral erythrocytic infection, turbot, 425.
Virulence:
Aeromonas hydrophila, serum resistance, 511;
Flavobacterium branchiophilum, 249;
serum resistance, *Aeromonas hydrophila*, 551.
Virulence assessment, infectious pancreatic necrosis virus, brook trout, 97.
Vitamin C, ichthyophthiriosis, rainbow trout, 347.

Winter mortality, rock oyster, *Mikrocytos roughleyi*, 609.
